

Kız Hazneden

(Turkey)

Formation: open circle, Pinky finger hold

Source: this dance was introduced to the US by Bora Özkök

The version described here is NOT the original version taught by Bora, but a slightly simplified version. This dance looks suspiciously like a Lesnoto. with windshield wiper arms (Bora's version has 2 steps with differing stylings)

The words to the chorus are:

Niye hanım niye canım, kız niye x2
Masaalla!!!
