

McGINTY SCHOTTISCHE

Music: Folkraft - Oklahoma Mixer - #1035

Step, back, step, swing (Grapevine Schottische step).

Repeat in reverse direction.

Blue Bonnet turn - Left and right and left and right.

(With right hands joined, the lady walks around the gent, i.e., the lady makes a right pivot clockwise and steps on the left foot as the man steps forward on his left foot. The lady now steps on her right foot behind the gent as the gent steps to his right on his right foot. The gent reaches down with his left hand; as he steps back on his left, she steps forward on her left and they join left hands, facing the same direction. The man now steps diagonally to his left on his right foot, at the same time pivoting the girl in front of him over to his right side. This pivot is a clockwise pivot for the lady on her left foot into place.* The gent faces the same direction during the entire dance.

* The weight is transferred to the right foot (the 4th step).
Repeat all.

ALTAI POLKA

Music: Broadcast Sentimental Journey #470
