

Pravo (Fast) (Bulgaria)

Notes by Andrew Carnie (2001)

This is one basic step for the fast Pravo dance. There are many variations. See also the notes for Slow Pravo (done to slower music)

Pravo means "straight or Even" and is usually done in 2/4 time or 6/8 time (counted 123|123)

The most common hand holds for this variation are belt holds or basket holds

Although the dance is in an even meter, it is usually counted as QQSS

A simple variation: do a 123 (RLR or LRL) for each slow count.

Another simple variation: do a step hop on each slow count.
