## THE BULGARIAN COLLECTION

### To the Musician

The music in The Bulgarian Collection presents the wealth and variety of folk dances from the principal ethnographic regions of Bulgaria. There is music here from the Danubian Plain of North Bulgaria, the Dobruja region in the Northeast, the Thracian region in Central and Southeastern Bulgaria, the region of the Rhodope Mountains in Southern Bulgaria, the Macedonian region of Southwest Bulgaria and the Shope region of Western Bulgaria. The dances included in The Bulgarian Collection are favorites of recreational folkdancers in the USA and elsewhere who are fascinated and challenged by Balkan dance and music.

#### MELODY, METER & MOVEMENT

For the musician who is unfamiliar with Bulgarian folk dance and music, a revelation is at hand ... a completely new experience that promises to challenge and confound, intrigue and entice, amaze and delight. One must put away the assumptions about melody and meter that have been inculcated by Western culture and academic study of music. It is as a neophyte that the European or American approaches Balkan music. A step-by-step initiation based upon melody and rhythm can, however, lead one into another world of music, rich with quite different musical styles and traditions.

Of the three basic elements of music - melody, harmony and rhythm - it is melody and rhythm that characterize much of Bulgarian folk dance music. To these another ingredient must be added: that of movement, both with respect to the steps and step patterns of the dances and also to the drive and rapidity of the melodic line of so much of the dance music. Both these aspects of movement in combination with the various odd-metered rhythms of the music and dance produce a dual effect: a physical and psychic breathlessness which is at once exhausting and exhilarating. Great demands for technical prowess and self-control are placed upon the musician.

The various rhythms of Bulgarian dance come to expression in the movement and structure of the melodic line in a much closer connection than typical of Western music. Melody and rhythm, intricately bound to each other by movement, can be nearly synonymous. The observations made here about Bulgarian dance and music can be applied to Irish music in  $\frac{6}{8}$ : the jig.

A step-by-step initiation to the music in The Bulgarian Collection should begin with tunes in a  $\frac{2}{4}$  or  $\frac{6}{8}$  meter in order to experience melody in a meter that is familiar. Suitable dance tunes for this are Dobrudzanska Reka, Singing Pravo, Triti Puti, Tropanka and Novo Zagorsko. With such tunes as these one can experience (and practice) the sub-divided beats and embellishments that give the melodies their pulse and momentum.

The next step is to become familiar with  $\frac{7}{8}$ , the most common of the odd meters found in the Balkans. The first tune to practice in this meter is Tragnala Rumjana, a beautiful tune with romantic lyrics. Then proceed to the other slow  $\frac{7}{8}$  tunes in this collection: Minka, Karamfil, Dospatsko Horo, Pirinska Igra. A tune in a quick  $\frac{8}{7}$  is Cetvorno Sopsko Horo. Another tune in  $\frac{7}{8}$  but with the rhythm reversed is Eleno Mome. The Yugoslav Collection contains several more slow  $\frac{7}{8}$  dance songs of a type known as "lesnoto."

Feeling comfortable with  $\frac{7}{8}$  is essential. When one has come to feel that this meter is as "natural" as  $\frac{3}{4}$  or  $\frac{4}{4}$ , one is ready to move into the "hot" odd meters that belong to the several types of generic dances in this collection: the paidusko in  $\frac{5}{16}$ , the ruchenitsa in  $\frac{7}{16}$ , the daichovo in  $\frac{9}{16}$ , the gankino and kopanitsa in  $\frac{11}{16}$  and the bucimis in  $\frac{15}{16}$ .

Finally, there are the dance tunes in mixed odd meters: Bičak in  $9+5$ , Jove Male Mome in  $7+11$ , Sandansko Horo in  $9+9+4$  and Sedi Donka in  $7+7+11$ .

With plenty of patience, persistence and practice, it is possible to play the tunes in The Bulgarian Collection. However, do not anticipate a brief period of initiation! For more information and guidance, consult Bulgarian Folk Dances by Raina Katarova-Kukudova & Kiril Djenev, published by Slavica Publishers, Inc., available from folk businesses listed on the next page.

#### TRANSCRIPTIONS & INSTRUMENTATION

The music transcriptions represent the dances as they are danced. They include metronomic markings for tempos, indications of chords, rhythms for chording, use of percussion, play patterns, lyrics in translation and transliteration. Harmony parts are included. Instrumentation and orchestration are noted or suggested.

The transcriptions are music scores. They may be used by the amateur "closet" musician or by an ensemble of mixed instrumentation. The music may be well played on violin, flute, mandolin, clarinet, recorder, accordion, guitar, autoharp and various percussion.

#### PROTECTION & USE

Protect this music. Use it carefully. Upon receiving it, reinforce the holes to avoid tears. Do the same for corners. Place the music in a ring binder that will allow easy removal or shuffling of individual tunes for practice or performance purposes.

## note on transposing

✓ for "B<sup>b</sup>" instruments: transposition to keys of G & C is necessary when band includes "C" instruments: via, fl., acc.

✓ for "C" instruments: If there are no "B<sup>b</sup>" instruments in band, a transposition into keys of G & C may be easier to play

✓ how to transpose for "B<sup>b</sup>" instruments: a) "sharper" key by one letter.

b) write notes up one interval: (E) → (F) e.g. F (E) → (F) G; B<sup>b</sup> (E) → (F) C

First system of musical notation with three staves. The top staff has a treble clef and a key signature of one flat. It contains a complex rhythmic pattern with many sixteenth notes and slurs. Chord markings include B<sup>b</sup>, Ft, and B<sup>b</sup>. The middle staff has a treble clef and contains a simpler rhythmic pattern with slurs. The bottom staff has a treble clef and contains a complex rhythmic pattern with many sixteenth notes and slurs.

Second system of musical notation with three staves. The top staff has a treble clef and a key signature of one flat. It contains a complex rhythmic pattern with slurs. Chord markings include Ft and B<sup>b</sup>. A 'D.C.' marking is present. The middle staff has a treble clef and contains a simpler rhythmic pattern with slurs. The bottom staff has a treble clef and contains a complex rhythmic pattern with slurs. A 'D.C.' marking is present.

Third system of musical notation with three staves. The top staff has a treble clef and a key signature of one flat. It contains a complex rhythmic pattern with slurs. Chord markings include F and Ct. A circled 'C' with 'trp' above it is present. The middle staff has a treble clef and contains a complex rhythmic pattern with slurs. The bottom staff has a treble clef and contains a complex rhythmic pattern with slurs. A 'clars.' marking is present. A circled 'C' with 'trp' above it is present. A 'omit on repeat' marking is present.

Fourth system of musical notation with three staves. The top staff has a treble clef and a key signature of one flat. It contains a complex rhythmic pattern with slurs. Chord markings include B<sup>b</sup> and Ft. A '1,2' marking is present. A 'repeat (C) take fine instead of 1,2' marking is present. A 'fine' marking is present. The middle staff has a treble clef and contains a complex rhythmic pattern with slurs. A '1,2' marking is present. A 'fine' marking is present.
